SMART N’ SLIM

A true control center, the Smart n’ Slim Monitoring Panel manages multiple Security Entrance Lanes, regardless of where the units are located.

The Smart n’ Slim Monitoring panel is a flexible command center and allows for visualization, control, and consultation.

PUSH BUTTON CONTROL PANEL

The push button control panel is an economical tool that connects to various turnstile units (1 to 8 lanes).

- Provides limited but quick control command of the turnstiles.
- Informs guard if a violation is detected.
Indoor/outdoor Turnstiles mainly used to lock down the perimeter of enclosed areas. They are bidirectional turnstiles that ensure single-user throughput and are extremely weather resistant.

1 million MCBF (Mean Cycles Between Failures)

**TRS SERIES**

**FULL-HEIGHT TURNSTILES**

Indoor/outdoor Turnstiles mainly used to lock down the perimeter of enclosed areas. They are bidirectional turnstiles that ensure single-user throughput and are extremely weather resistant.
