SYSTEMS

*Access Controlled...
Future Secure*

Automatic Systems' ClearLock security doors are cylindrical booths that ensure strict entrance control and are especially designed for sensitive sites. Combining high security and elegance, the ClearLock series is available in different sizes, shapes and finishes, with single or double doors both on entry and exit.

Security & Safety

- Full-height circular booth with sliding entrance and exit doors that never open simultaneously
- Bullet, vandalism and theft resistant, compliant with industry standards (EN1063, EN356, UL752...)
- Single person detection

Aesthetics & Customization

- Elegant design with large glass surface
- Doors mounted directly onto existing floor
- Compact footprint
- Round or square frame
- Wide range of finishes (stainless steel, painted...)
- Tinted glass obstacles

Adaptability & Flexibility

- Products available disassembled, in accordance with on-site installation requirements
- Electronic and mechanical parts located in the canopy, easily accessible for maintenance
- Numerous accessories available

Reliability & Performance

- Double entrance and exit doors, ensuring fluid throughput (ClearLock 65x)
- Control panel for set up and management
- Remote management using TCP/IP connectivity
