Monitoring and Control

Remote monitoring and control panel for a flexible command center.

▲ SMART' N SLIM

A true control center, the Smart' N Slim Monitoring Panel manages multiple Security Entrance Lanes, regardless of where the units are located.

The Smart' N Slim Monitoring panel is a flexible command center and allows for visualization, control, and consultation.

Smart Touch

The Smart Touch is a simple yet elegant solution for managing one or two access control areas remotely, via an Ethernet network.

The 10" touchscreen offers several viewing options in order to provide you with a clear image of your facility.

▲ PUSH BUTTON CONTROL PANEL

The push button control panel is an economical tool that connects to various turnstile units (1 to 8 lanes).

- Provides limited but quick control command of the turnstiles.
- Informs guard if a violation is detected.
