BL15

PARKING BARRIER GATE

The ETL certified BL15 is a parking barrier gate that offers a simple yet highly reliable solution for all parking applications.

Articulated arm

Straight arm

Minimal footprint

Arm lengths between 6'-5" (2m)
and 13'-1" (4m)

Easy set up interface

IP Enabled

Unique optional breakaway feature

On-site adjustable arm lengths

Gate arm breakaway

«BL-229»»

UNIVERSAL RISING BARRIER GATE

The BL 229 provides high performance and great reliability, enabling it to be used in a wide range of applications such as traffic management, perimeter control and even toll roads.

BL-229

BL-229 Toll

BL-229
Articulated

Spring balanced arm to ensure
a perfectly aligned barrier

Arm lengths going up to 19'-8" (6 m)

Simple and reliable drive system

Designed and manufactured in North
America for our harsh weather conditions

Tip support and analog sensor included
for gates that are 18' (5.5 m) and longer

Carbon fiber or oval arm for toll model

Gate arm breakaway for lengths that
are 13' (4 m) or less

BL4 SERIES

EXTRA LONG RISING BARRIER GATE

The BL4 rising barrier gate offers extra-long barriers to close off wide lanes and security barriers that are particularly suited for industrial sites.

BL40
Up to 26'-2" (8 m)

BL43
Up to 19'-7" (6 m)

BL41
Up to 39'-4" (12 m)

Direct drive motor

Arm lengths going up to 39'
(12 meters)

Rapid opening speed
of 5,5 seconds

Low maintenance cost

Designed for intensive use

One operator for multiple
applications

BL5 SERIES

Models with arm lengths up to 45'-1" (14 m)

BL HD SERIES

HEAVY DUTY RISING BARRIER GATE

These reinforced barriers can be used for the perimeter control of high security sites.

BL53HD

BL77HD

BLG77HD

BL43HD

Small footprint

Simulated impact resistance

Fast opening speed

Minimal maintenance required

Economic and dissuasive solution for high risk locations

Variety of safety features included (photocells, bracing posts, etc.)

RISING FENCED BARRIER GATE

The BLG7 family is able to close off access to secure sites and restrict both vehicle and pedestrian traffic. They are designed for intensive use, can function in a great variety of climatic conditions and are highly reliable.

BLG76

BLG77

Fast opening time

Minimal footprint

Low maintenance

Made in North America

Multiple safety features included
(safety edge, audible alarm,
electromagnetic tip support, etc.)

New logic board increases
in/out relays

OPTIONS

ARM LIGHTING

- Bright, long lasting LED panels
- Ideal for enhanced safety and security at night

TIP SUPPORTS

- To support barrier arms
- To reinforce the security level

PEDESTAL

- Post for integration of accessories
- Car, truck or dual height
- Ideal for rising barriers

ORNAMENTAL FENCE (BL677 option)

CONTROL & DETECTION

- Laser
- Photocell
- Loop detector

COMMAND

- Remote control

TRAFFIC LIGHTS
